Summary

Full Stack Developer skilled in React.js, JavaScript, Java, Python, Flask, MySQL, and REST APIs. Experienced in developing responsive web applications, reusable UI components, and backend-integrated projects through internships and personal projects. Passionate about scalable application development, problem-solving, and modern frontend technologies.

Education

Global Institute of Technology, Jaipur

Jul 2023 – Present

B.Tech in Information Technology - CGPA: 9.27

Senior Secondary (Class XII)

2023

S.N. Tiwari Higher Secondary School - 77%

Work Experience

MERN Stack Intern

Mar 2026 – Present

Apptunix, Chandigarh/Mohali

- Developed responsive web interfaces using **React.js**, **Tailwind CSS**, **Material UI** and **Bootstrap**.
- Engineered reusable UI components to enhance development efficiency and code consistency.
- Optimized frontend performance through mobile-first design and modern CSS practices.
- Integrated **RESTful APIs** and collaborated with teams to resolve UI/UX issues.

Java Intern

Jun 2025 – Aug 2025

GRRAS Solutions Pvt. Ltd., Jaipur

- Worked on **Core Java**, **MySQL**, **JDBC**, and **Stream API** while developing Java-based applications focused on backend logic and database connectivity.
- Gained practical experience in writing efficient code, handling databases, and building scalable applications.

Key Projects

Banking Management System | JavaScript | GitHub

- Built a command-line banking management system using **JavaScript** with authentication, transaction handling, deposit, withdrawal, and balance management features.
- Implemented loan management functionality with EMI calculation, interest handling, and regex-based input validation.

Expense Tracker | React.js, Redux, React Router | GitHub

- Developed a responsive expense tracking application using **React.js**, **Redux**, and **React Router**.
- Implemented features to add and track expenses with multiple pages navigation and dynamic UI updates.

Flask Blog Website | Python, Flask, MySQL | GitHub

- Developed a full-stack blog application using **Flask** and **MySQL** with CRUD operations, admin dashboard, and user authentication.
- Implemented backend logic for content management and image upload functionality.

Weather App | JavaScript, REST APIs | GitHub

- Developed a weather application using **JavaScript** and **REST APIs** to fetch and display real-time weather data.
- Implemented dynamic rendering based on user search input and API responses.

Certifications

Java Internship – GRRAS Solutions Pvt. Ltd.

Credential

Complete Python Bootcamp – Udemy

Credential

HackerRank SQL (Advanced)

Credential

HackerRank Python

Credential

Skills

Languages: Java, Python, JavaScript
